INTELLIGENT COLLABORATION SOFTWARE

## Intelligent Information Management with Combionic

Our software integrates information from every business application in Microsoft<sup>®</sup> Office, Internet Explorer<sup>®</sup> and Adobe<sup>®</sup> Reader<sup>®</sup>. Get context-relevant access to information from business applications within your common User Interface without toggling between different applications. This in turn creates a significantly more productive, compliant, and user-driven working environment. Combionic is the recipient of a Microsoft<sup>®</sup> Government Innovation award.
